Cst NIPPARD contacted Scott Harris and advised him he will need to arrange the interview for a later time as he was required to attend the Mount Carmel area for other statements. This was fine with him and he suggested Cst NIPPARD give him a call when I was available.

**Task Assignment: 37 - Notes**

**Task No: 37**

S/Sgt TILLER accompanied Cst. John Galway to residence of Megan Dunphy. Intent was to request the keys to residence and consent for investigators to attend. Conversation went on for estimate 20 minutes. Cst. Galway took the lead in conversation, note that she is very interested in getting the whole story at some point - of great concern to her. She did acknowledge that her father does have a temper, and in her words can go from calm demeanor to high level when there is something he does not like. When he decides your out of the residence, you will know it is time to leave. She noted that he escorted her out of the residence by the arm a number of times. She continues to be confused about the circumstances. She also noted that she will be getting a lawyer to assist her with this matter. She appologized for same and advised that it is nothing to do with us - suggesting the members present. She advised that she does not know where to start with such a matter. She was aware that sghe can withdraw consent for us to be in the house at any time.
