---

The criminal investigation was conducted by the RCMP completely independent from the RNC. They should be contacted for any comment on that investigation.

The Saskatoon Police Service is conducting the internal investigation which involves reviewing any matters such as potential breaches of RNC policy. The Saskatoon Police Service investigation is not complete and they should be contacted for any further comment.

Sir,

How can I reply to John's inquiry? This is re: Dunphy. I spoke with him on the phone and he's not really sure who has what with this file and I wasn't sure how to best answer him.

Good speaking with you on the phone just now.

As we discussed, at the moment I'm just looking to confirm how the case proceeded. On one hand I've heard that the RNC asked the Saskatoon Police Service to conduct an internal review, while on the other I've heard the RCMP has asked ASIRT to conduct an independent review of the Dunphy case.

At the moment I'd just like to know/confirm whether this was a joint investigation between the RCMP and the RNC (and if so how that worked); what the difference between an independent review of a case and an internal review is; and whether the internal review has been completed or not.

Thank you for your help,
